EARTH DAY CHORAL SPEAKING ANALYSIS

On your own, pick ONE section (at least 5 lines) of your Choral Speaking script to analyze.

Your one-page, typed response must include the following:

1. One paragraph that explains why your group decided it was important to include this particular piece in your script. How does it add meaning to the entire script?
2. In full detail, explain your reasoning behind the delivery style or effects that you have chosen for **EACH** line in this section. This means you must include a copy of your script. To do this, complete each of the following steps:
 - a. Label each line of this section on your copy of the script (attached to your typed submission) a, b, c, d, etc. This will make it easy to refer to each specific line in your paragraph response.
 - b. For each line, write the choral effects that you are using. Discuss why the delivery is meaningful to each line, and how it adds dramatic effect to your presentation.

This analysis will be awarded a mark out of 15. The marking scheme is as follows:

Paragraph 1 – response to question #1 – 5 marks

Paragraph 2 – response to question #2 – 5 marks

Style – 5 marks – one mark each for a typed response, the use of paragraphs to respond to questions, the use of correct spelling and grammar, the attachment of your copy of the script to this assignment, and the labelling of your selected section according to the directions in #2a above.

Paragraph reflections must include thoughtful and honest reflections about your work. You must also use specific examples when discussing your decisions, and suggest improvements for next time.

This analysis is due at the start of class on _____.
